

Sostanon 250 Profile

Sostanon 250 Profile

Substance: Testosterone Propionate 30 mg, Testosterone Phenylpropionate 60 mg, Testosterone Isocaproate 60 mg, Testosterone Decanoate 100 mg

Sostanon 250 is the Mexican version of Sustanon 250 manufactured by Organon. Sostanon is in great demand because it comes in a "preload" 1 mg/ml, 250 mg Testosterone blend. This preload is considered safe because, until recently, counterfeiting of such was non-existent due to the expense involved in counterfeiting the packaging. Unfortunately, the rise in the price of legit Sostanon is making it increasingly profitable for counterfeiters to promote their versions of Sostanon and counterfeits are becoming abundant.

Sostanon 250 Price: \$10.50-\$12 in Mexico, \$15-\$25 on the black market
