

Testosterone Retard Teramex Profile

Testosterone Retard Teramex Profile

Substance: Ciclo Hexame Propionate

Testosterone Retard Teramex is a French steroid which comes in 25mg, 100mg and 200mg per milliliter strengths. Testosterone Retard Teramex exhibits similar characteristics to other testosterone in terms of size and strength gains. European bodybuilders claim to get good results using Testosterone Retard Teramex in dose of 200-300mg per week.
