

## Testosterone Teramex Profile

### Testosterone Teramex Profile

Substance: Testosterone DC 1 Heptylat

Testosterone Teramex is a French testosterone which is used by some European bodybuilders. Testosterone Teramex comes in 50mg, 100mg, or 250mg/ml strengths. The latter is the most popular amongst bodybuilders who claim to get fantastic results off of a single 250mg injection a week
